

GREEN
CENTURY
FUNDS

Invest in a green future

Helping you invest responsibly for
yourself, your family and the future.

Our three-pronged approach offers investors the opportunity to make an impact in a way no other environmentally and socially responsible mutual fund family can:

- 🌱 **Investing in sustainable companies:** Green Century seeks to invest in environmental innovators and sustainable companies, including companies involved in energy efficiency, renewable energy, and sustainable agriculture.
- 🌱 **Leading shareholder advocacy program:** Even corporate sustainability leaders have room for improvement, which is why Green Century works with dozens of companies to adopt stronger environmental practices and policies throughout their supply chains.
- 🌱 **Supporting environmental and public health non-profit organizations:** 100 percent of the profits earned managing the Green Century Funds are used to support the environmental and public health advocacy work of non-profit organizations.

Celebrating 25 Years of Impact Investing

Twenty-five years ago, the group of environmental and public health non-profits that founded Green Century decided to help people save for their future without compromising their values. It is a simple concept, but one that was only being used by a handful of fellow pioneers in the socially and environmentally responsible investing space. Since then, both Green Century and the field of environmentally responsible investing have grown together. More investors continue to choose impact and find new, innovative ways to use the power of investing to create change; with momentum growing every day.

OUR SUSTAINABLE INVESTMENT SOLUTIONS:

- 🌿 The **Green Century MSCI International Index Fund** invests in the stocks of foreign companies selected for their outstanding environmental, social and governance ratings.
- 🌿 The **Green Century Equity Fund** invests in the stocks of the companies included in a customized version of the longest-running socially responsible index.
- 🌿 The **Green Century Balanced Fund** invests in the stocks and bonds of environmentally responsible companies as well as green bonds, which finance climate mitigation projects worldwide.

Fossil Fuel Free

Green Century is the first family of responsible and diversified fossil fuel free mutual funds in the U.S. Investing fossil fuel free is a way to avoid the very companies most responsible for climate change and may protect you and your family from potential financial risks such as oil price volatility and stranded assets.

Solutions-Oriented Investing

Green Century has always believed that investing in line with your values is good for you, your financial future and the planet. And, in the last decade, there has been a growing body of evidence that demonstrates growth of the sustainable investment model. Companies that avoid harming the environment, communities in which they operate, and public health may not only enjoy a competitive advantage by appealing to consumers concerned about sustainability, but also may avoid damage to their brand reputation and costly litigation. These are the reasons why we invest in companies with outstanding environmental, social, and governance ratings as well as companies actively working to protect the environment.

Stocks will fluctuate in response to factors that may affect a single company, industry, sector, country, region or the market as a whole and may perform worse than the market. Foreign securities are subject to additional risks such as currency fluctuations, regional economic and political conditions, differences in accounting methods, and other unique risks compared to investing in securities of U.S. issuers. Bonds are subject to risks including interest rate, credit, and inflation. The Funds' environmental criteria limit the investments available to the Funds compared to mutual funds that do not use environmental criteria.

The Green Century MSCI International Index Fund (the "Fund") is not sponsored, endorsed, or promoted by MSCI, its affiliates, information providers or any other third party involved in, or related to, compiling, computing or creating the MSCI indices (the "MSCI Parties"), and the MSCI Parties bear no liability with respect to the Fund or any index on which the Fund is based. The MSCI Parties are not sponsors of the Fund and are not affiliated with the Fund in any way. The Statement of Additional Information contains a more detailed description of the limited relationship the MSCI Parties have with Green Century Capital Management and the Fund.

You should carefully consider the Funds' investment objectives, risks, charges and expenses before investing.
