International Index Fund
GCINX/GCIFX

As the first family of responsible and diversified fossil fuel free mutual funds in the U.S., Green Century® has been a leader in environmentally and socially responsible investing for thirty years.

Green Century offers investors the opportunity to make an unrivaled environmental impact with their investments. Our unique three-pronged approach features investments in environmentally responsible companies, a preeminent shareholder advocacy program that pushes for more sustainable corporate practices, and one-of-a-kind support for environmental and public health organizations.

As the only mutual fund company in the U.S. founded and owned by nonprofit organizations, 100% of the profits Green Century Capital Management earns managing its Funds can be used to support the critical work of these organizations.

Investment Objective:
The Green Century MSCI International Index Fund (the International Index Fund) seeks to achieve long-term total return which matches the performance of an index comprised of the stocks of foreign companies selected based on Environmental, Social, and Governance (ESG) criteria.

Sustainable Investment Strategy:
The International Index Fund is the first diversified and responsible fossil fuel free international index fund available to U.S. investors. The Fund is comprised of the common stocks of approximately 200 companies in the MSCI World ex USA SRI Index, minus the stocks of fossil fuel companies.

The Fund invests in:
Large- and mid-cap companies with outstanding ESG performance. A sustainable investment strategy which incorporates environmental, social and governance criteria may result in lower or higher returns than an investment strategy that does not include such criteria.

Companies in approximately 22 developed markets, including Canada, Australia, Europe, and parts of Asia. It does not invest in companies in the U.S. or emerging market countries.

The Fund excludes corporations that:
Explore for, process, refine, and transmit coal, oil, and gas; burn fossil fuels to make electricity; or possess carbon reserves.

Produce nuclear energy, nuclear weapons, civilian firearms, military weapons, tobacco, GMOs (Genetically Modified Organisms), or alcohol; or are gambling enterprises.

The MSCI World ex USA SRI ex Fossil Fuels Index is a custom index calculated by MSCI Inc. The World ex USA SRI ex Fossil Fuels Index is comprised of the common stocks of the companies in the MSCI World ex USA SRI Index (the World ex USA SRI Index), minus the stocks of the companies that explore for, extract, produce, manufacture or refine coal, oil or gas or produce or transmit electricity derived from fossil fuels or transmit natural gas or have carbon reserves included in the World ex USA SRI (Socially Responsible Investment) Index. The World ex USA SRI Index includes large and mid-cap stocks from approximately 22 developed markets countries (excluding the U.S.).

The World ex USA SRI Index is a capitalization weighted index that provides exposure to companies with what MSCI calculates to have outstanding ESG ratings and excludes companies whose products have negative social or environmental impacts. It is not possible to invest directly in an index.

The Green Century MSCI International Index Fund (the “Fund”) is not sponsored, endorsed, or promoted by MSCI, its affiliates, information providers or any other third party involved in, or related to, compiling, computing or creating the MSCI indices (the “MSCI Parties”), and the MSCI Parties bear no liability with respect to the Fund or any index on which the Fund is based. The MSCI Parties are not sponsors of the Fund and are not affiliated with the Fund in any way.
