As the first family of responsible and diversified fossil fuel free mutual funds in the U.S., Green Century® has been a leader in environmentally and socially responsible investing for thirty years.

Green Century offers investors the opportunity to make an unrivaled environmental impact with their investments. Our unique three-pronged approach features investments in environmentally responsible companies, a preeminent shareholder advocacy program that pushes for more sustainable corporate practices, and one-of-a-kind support for environmental and public health organizations.

As the only mutual fund company in the U.S. founded and owned by non-profit organizations, 100% of the profits Green Century Capital Management earns managing its Funds can be used to support the critical work of these organizations.

**Investment Objective:**
The Green Century Balanced Fund seeks capital growth and income from a diversified portfolio of stocks and bonds which meet Green Century’s standards for corporate environmental responsibility and sustainability.

**Sustainable Investment Strategy:**
The Fund is an actively managed fund comprised of approximately 75 stocks of small-, mid- and large-cap companies, mostly based in the U.S., and primarily investment grade bonds.

A sustainable investment strategy which incorporates environmental, social and governance criteria may result in lower or higher returns than an investment strategy that does not include such criteria.

**The Fund invests in:**
Environmentally responsible companies, especially well-managed and innovative leaders in the renewable energy, energy efficiency, and healthy living sectors.

More than 50% of the Fund’s fixed income holdings are in green and sustainable bonds that finance climate change mitigation and renewable and sustainable energy projects.¹

**The Fund excludes corporations that:**
Explore for, extract, process, refine, and transmit coal, oil, and gas; burn fossil fuels to make electricity; or possess carbon reserves.

Produce nuclear energy, nuclear weapons, civilian firearms, military weapons, GMOs (Genetically Modified Organisms), or tobacco; or are factory farms.

The performance data quoted is past performance and past performance is no guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. To obtain performance current to the most recent month-end, please call 1-800-934-7336. Performance includes the reinvestment of income dividends and capital gains distributions, if any. Performance shown does not reflect the deduction of taxes that a shareholder might pay on Fund distributions or the redemption of Fund shares. A redemption fee of 2.00% may be imposed on redemptions or exchanges of shares you have owned for 60 days or less. Please see the prospectus for more information.

¹The Custom Balanced Index is comprised of a 60% weighting in the S&P 1500® Index and a 40% weighting in the BoFA Merrill Lynch 1-10 Year U.S. Corporate and Governance Index. It is not possible to invest directly in the Custom Balanced Index.

The S&P 1500 Index is an unmanaged index of 1500 selected stocks. The BoFA Merrill Lynch Index tracks the performance of U.S. dollar-denominated investment grade government and corporate public debt issued in the U.S. domestic bond market with at least 1 year and less than 10 years remaining maturity, including U.S. treasury, U.S. agency, foreign government, supranational and corporate securities. It is not possible to invest directly in the Custom Balanced Index.
